Application/Control Number: 09/881,026

Art Unit: 1756

## **DETAILED ACTION**

## Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, drawn to a method, classified in class 430, subclass 30.
  - II. Claim 11, drawn to a mark, classified in class 257, subclass 797.
  - III. Claim 12, drawn to an apparatus, classified in class 356, subclass 399.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions of Group I and of Group II or III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed could be performed with any well known alignment mark systems that satisfy the claim 1 requirements, and analyzed by a skilled technician, or well known metrology apparatus. Additionally, the alignment marks as claimed could be utilized as standard alignment marks, global positioning marks, image degradation analysis features or basic image topography.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. A telephone call was made to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this

Application/Control Number: 09/881,026

Page 3

Art Unit: 1756

requirement to be complete must include an election of the invention to be examined even though

the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the

fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner

should be directed to C. Young whose telephone number is (703) 308-2984.
